Gelish/Jessica GELeration

Aftercare Advice

To make the best of your newly treated hands/feet, follow these simple guidelines:

Your Gelish/Jessica GELeration manicure should last between 14 and 21 days but please remember this product is not indestructible.

To get the best out of your Gelish/Jessica GELeration, wear gloves when cleaning, washing up or gardening . Apply a moisturising hand lotion regularly throughout the day.

Application of CND Solar Oil Nail & Cuticle Conditioning Oil is recommended with Gelish/Jessica GELeration to help with the wearability. We retail small bottles of Solar Oil for £3.00.

Gelish/Jessica GELeration should be removed professionally or using a removal kit available from the salon for £10.00 for home use.

Please do **not** pick the Gelish/Jessica GELeration off as this does cause damage to the natural nails.
